

**Research By: Hsuan-Jun Lin**

## **Authentication UI Site**

### **Overview:**

This project focuses on designing and implementing a modern authentication user interface (UI) for the Varsity Sports Show web application. The goal is to provide a clean, intuitive, and secure sign-in/sign-up experience that integrates seamlessly with Clerk, a third-party authentication service.

Users visiting the platform are redirected to a dedicated login page, where they can authenticate using email, username, or third-party accounts such as Google. Upon successful login, the user is redirected to a personalized dashboard, which serves as the central hub for viewing livestream pages, upcoming events, and account information.

The authentication UI is built using **Next.js**, **Clerk**, and **Tailwind CSS**, ensuring fast rendering, mobile responsiveness, and a polished, professional visual style. The design emphasizes accessibility, simplicity, and security, while maintaining a branded experience consistent with the Varsity Sports Show identity.

### **Objective:**

Quick Overview about the Subscription Plan

## LIVE-STREAM PLANS

Watch sports anytime, anywhere. Choose the plan that fits your needs.

### Varsity Basic

Automatically assign with user Sign-Up

- Access to free livestream games
- Standard video quality

FREE

### Varsity Premium

\$9.99

Ideal for fans who watch weekly games with improved quality

- Access to all standard livestream games
- Full replays and on-demand viewing
- HD video quality

Price: \$9.99 / month

## TEAM / EVENT PACKAGE

Designed for fans who only want to watch specific games or the full season.

### Varsity Giveaway Pass

Free livestream access for **Giveaway**

- No subscription or payment required.
- Limited for eligible games.

FREE

### Varsity Express Pass

\$4.99

One time livestream access for **Single Game**

- No subscription required.
- HD video quality

Price: \$4.99 / game

Sign-In Page with Clerk Authentication

## **Team Future work:**

**The base website:** <https://varsitysportsshow.com/> (Godaddy Access share from Vince)

**The backend user UI site:** <https://app.varsitysportsshow.com/>

- Once the user click the link from base website, it will automatically redirect to **/sign-in page**
- Once the user sign-in, it will automatically redirect to **/dashboard page**

**Current Site Page:**

- **/dashboad - > user livestream UI page**
- **/sign-in -> user sign in UI page**
- **/sign-up -> user sign up UI page**
- **/live -> livestream UI page with each game**
- **...etc**

**Git clone the current repo for site UI:** <https://github.com/hlin152/varsity-sports-show>
